

starpak 1700 docking station for extreme conditions

To suit the Globalstar Qualcomm GSP-1700
The STARPAK 1700 at 5.0lbs and 4.5 x 9.5 x 10.5" excels in functionality and ultimate protection from extreme conditions, or just to provide a flexible hands free solution for everyday use.

Utilizing the world renowned Pelican small 1200 Ultra High Impact, water resistant case series the combination proves unbeatably robust in performance.

The Pacific Rim USA STARPAK 1700 uniquely provides users with the world's first and:

- world's smallest
 - world's lightest
 - most compact and fully featured
- ultra protected docking station for GSP-1700 Satellite Telephones

This unit is built to take the punishment and will respond with total resilience.

User Friendly and Easy Vehicle Transfer

Vehicle to Vehicle transfer is fast and unobtrusive for both operator and passengers. Choice of Left or Right hand drive configurations together with raised handset viewing make for safe, convenient operation during the most demanding of maneuvers.

A Realistic "Turnkey Solution" for Redundant Communications

A must for Police, Emergency Services, Maritime Safety and Tactical Response; or just simply when your vehicle or vessel is your office.

Outback Development Defines "Performance"
Pacific Rim's formidable design has been proven and developed over many years in the harshest terrain and conditions on Earth, where communications means life.

"Nobody - will be passing by any day soon."

Protection against water damage is assured by the built-in desiccant unit. The 2 Year (24 month) limited Warranty provides complete confidence.

STARPAK 1600 & STARPAK 550 model also available for the Globalstar Qualcomm GSP 1600 (SAT/CDMA & Telit 550 (SAT/GSM) series.
